OF THE
SELECTMEN AND OTHER OFFICERS
OF
THE TOWN OF RUTLAND,
1864.

RUTLAND :
JOHN CAIN, STEAM JOB PRINTER.
1864.

REPORT OF SELECTMEN.

To the Town of Rutland :

FELLOW CITIZENS: Your selectmen have the honor to submit herewith their Annual Report.

We have opened and finished building the Moulthrop road, at a cost of \$800 00.

We have laid a road from Spring street north, parallel with Grove street, and intersecting with it at Mr. Patch's house. Most of the land owners gave the land ; to others, who did not, we have awarded \$612 50 for land damages.

Wales street has been extended into the Moulthrop road. Messrs. Chapin and Putnam gave the land through their premises. To Mrs. Strong we awarded \$50 00 damage.

The South street, in Nebraska, has been extended west some forty rods.

We have laid a road from near Mr. Luther Thrall's house, west to the three houses located just above Parker's Mill. Also one from Clement & Sons' Mill, around on the south side of the river to the Ripley bridge, and contracted with Mr. Clement to give the land and build the road through his land for \$200 00. Twenty-eight rods of this road through Mr. Ripley's land, is not yet settled for.

Four petitions for other new roads we have not laid.

Petitions, numerously signed, for widening Centre street and paving Merchants' Row, have been presented to us ; but owing to the want of funds, and the lateness of the season, we could not do either.

Claims to a considerable amount have been presented to us for damages for accidents alleged to have occurred on the plank side-walks in the east village, which we have not paid. The trustees of the Village Corporation have by their charter, the whole control of all walks, roads and lanes within their limits. As these walks have been built and kept in repair by the trustees, by the advice of counsel, we did not feel warranted in settling such claims.

There remains on the hands of your former liquor agent, E. C. Lewis, a lot of condemned liquors which have cost the town \$178 50. These liquors have been handed over from one agent to another for some years. They might as well be turned into the gutter now, as to be kept longer on expense for storage.

RECRUITING.

We are happy to announce to you, that your quota of men, under the last call of the President for 300,000 troops, has been filled. A list of the men, and the sum paid each, will be found within. Of the whole number, 72 were enlisted by us, 3 at Burlington and 50 at the Provost Marshal's office; making 125 in all. At the latter office the men were examined, mustered in and uniformed, and that was the end of it with them. At our office they were examined, sworn in, and then sent to Brattleboro, where they were re-examined and mustered in, with a possibility of their being rejected there; for this reason many preferred the former office to ours. Your quota could have been *filled on paper* much sooner, and at considerable less expense, had we had more to do with substitute brokers; but we chose men who would rather march on Richmond with their muskets on their shoulders, than to march on Canada with their bounties in their pockets. It is thought by some that the bounty is too large; but none think that the soldier who perils his life in the field and camp in fighting our battles and

defending our homes from invasion, does not richly earn it. Some contend that to raise by tax the large amount of bounties you have voted, will be oppressive to the poor man. When the poor man reflects that his share of this tax will be only his earnings of four days work, all told ; and that that small amount has saved himself or his neighbor from paying \$300 00, or going to the war, he will most certainly and most cheerfully pay it. On the 1st of February we were called upon by Gen. Washburn to fill our deficiency, which by re-enlistments has been reduced to 40 ; but we have failed to enlist a single man, as we had no bounties to offer. No quota has been assigned to Rutland for the late new call of the President for 500,000 men. We are informed that all men who have entered the service since the 17th of October last, from this town, will be credited on this call. The number of men so entered, since the above date, is about 175, which will make our next quota small.

The expenses of recruiting are not yet all paid. A statement will be made at your next meeting of the same.

REPORT OF THE OVERSEER OF THE POOR.

The Overseer of the Poor closed his account on the 15th day of February, and paid outstanding claims against his department, by orders drawn on the Treasury, amounting to.....	\$1201 03
Paid by money received from other sources (see items),..	345 43
Paid by overseer (see items),.....	109 57
Due Superintendent of the Farm,.....	200 00
Your Physician's salary, is.....	58 00

The whole amount of expenses for the support of the

Poor the present year, exclusive of the Overseer's salary, is.....\$1914 03

You also have, herewith, a list of persons who have received assistance outside the poor house, and the amount annexed to each name, and the cause for rendering such aid.

The expenses of maintaining the poor, outside the poor house, are somewhat less than last year. There have been admitted to the poor house during the year, 43 different persons; and the averaged number through the year has been 27. There are now in the poor house 22 : 8 adults and 14 children. There has been but two deaths, and not as large an amount of sickness, as last year. But if we take into consideration the increased price of provisions, together with the extra cost of clothing, it is easy to see, that with the same number of poor at the house this year as last, and about the same number outside, the cost of supporting the one, and helping the other, must be somewhat more. The number of persons and families helped outside the poor house is 63.

You will herewith find a statement of the products of the farm, and also an Invoice of the stock, provisions, furniture, &c.
